

C7 Side Stripe 3

- Please check out the instruction on how to install stripes with paper premask on top of the stripes here:
<http://www.vettestripes.com/wp-content/uploads/2018/05/Install-Stripes-With-Premask.pdf>
- Here is the instruction on how to mix soapy solution:
<http://www.vettestripes.com/wp-content/uploads/2016/03/How To Peel Off Stripes.pdf>
- Install rear quarter panel stripe first. Line it up with the top edge of the rear quarter panel and about 1/16" overlap the rear join of the rear bumper so it can bend inside. The stripe will also longer the other end of the quarter panel so you can bend them inside.
- Install the stripes on the door panel line up with top edge of the door and also line up with the rear quarter panel stripes. Both ends of the door stripes would be longer to bend them inside the door.
- Install the stripes on the front quarter panel to line up with door stripes and also bend inside the front quarter panel about 1/4".
- Install the rear bumper stripes to line up with rear quarter panel stripes and about 1/16" overlap the join with rear quarter panel.
