

C7 Stingray GS 2 colors

- Please check out this YouTube video to know how to install the main stripes: <https://youtu.be/ehilr0iDMlk>
- The main stripes will be $\frac{3}{4}$ " away from the headlights instead of $\frac{1}{2}$ " since there is $\frac{1}{4}$ " pinstripes.

- The main stripes will be above the fender line about $\frac{1}{4}$ " as above picture.
- Please check out this YouTube video to know how to put on the pinstripes after done with main stripes: <https://www.youtube.com/watch?v=zlrCO097hWY>
- That video is for C5 but it is the same concept for C7 pinstripes.
- When installing pinstripes, DO NOT peel off the masking tape until finish installation. Check this instruction to install stripes with premask: <http://www.vettestripes.com/wp-content/uploads/2018/10/Install-Stripes-With-Premask.pdf>
- If your pinstripes are a bit short (which most of the time they should be), then just peel off the clear premask a little bit. When peeling premask off, it will stretch your pinstripes to make it long enough. Do not peel off too much and will stretch it longer. Peel a bit and test fit, etc ...
- If your pinstripes are longer (which somehow you stretch it since we don't intent to make it longer), then pretty much you are doomed 😊 and will need to trim it. This is less than 1% happening!
